PROJECTS

Bims' Kitchen App(Android Application)   **Guide : Prof. Asim Banerjee(DAIICT)**
I have contributed in Bim's Kitchen App project which is basically android application for a startup named Bim's Kitchen which is providing food in gandhinagar. As part of this project i have worked specifically on admin app which will control order , update menu , track order and add menu to database.Tools used for this project was android studio , firbase , java etc. .

Online Shopping Website (Web Application)   **Guide : Pokharmal Jat(DAIICT)**
This is online shopping website in which users can search and order items.I am still working on this project.I am using HTML, CSS for front-end and php for back-end. Database is made in phpmyadmin.

Real-Time-Chat Application   **Guide : Self**
It is basically a chat application where one can create new chat room or continue to older chat room and have chatting there after login.I have used firebase for storing data.

Search Engine   **Guide : Parth Gupta (IIIT Vadodara)**
As a part of this project, I designed a search engine that works on lakhs of document and retrieve relevant documents based on the query.I used java as a programming language for this project.

INTERNSHIPS

- Rural internship at ActionAid(patna)
  As a part of this rural internship i worked for a NGO named ActionAid which is situated in patna. Basically, we developed a library software for our NGO so that they can store their data. Tools used in this software was Ms Access , Visual Basic etc.

- Summer internship at AdStair Inc.(Gurgaon)
  This is my first industrial internship. I did my summer internship in AdStair Inc. which is situated in Gurgaon.I worked on reverse engineering of android applications. It was very much exciting for me to be part of this company.I learnt lots of new things in this internship.
